

A Summer To Shape Your Future

Academic summer schools
2024-25

Oxford, Cambridge, London, Yale, UC Berkeley and New York

6 World-Class Locations. 11+ Campuses. One Summer of a Lifetime.

Welcome to Oxford Royale’s 2025 prospectus. We’re so pleased you’re considering spending next summer with us at one of our world-leading, award-winning academic summer schools.

Designed exclusively for ambitious young people, you’ll enjoy unparalleled learning and cultural experiences, discover a brand new destination – and make friends for life from all around the world. You’ll also become part of our prestigious list of Oxford Royale alumni, many of whom have gone on to study at the world’s most respected universities and forged incredible careers in their fields.

Our unique approach to learning is shaped by our belief that education is about far more than a formal classroom. Alongside academic excellence, we offer rich cultural and learning experiences to motivate young people to achieve their true potential, driving them to success on paths they may not have previously considered.

We’d be delighted to welcome you to one of our courses in 2025 – and kick-start your future with an Oxford Royale summer of a lifetime!

The Oxford Royale Experience

Since 2004, our mission has remained the same: to provide young people with a rich learning experience, helping them to identify their strengths, passions and ambitions so they can get ahead in life and achieve their dreams and aspirations.

We believe that global awareness, varied cultural experiences and international networks are key to carving out a successful path in an increasingly competitive climate. Over 20 years we've welcomed more than 35,000 students from 176 nations to our world-leading partner institutions* – and are proud to say we're the most international summer school in the world.

**Note: Oxford Royale is not a part of, or otherwise affiliated to, any of our partner institutions.*

Top nationalities

Oxford Royale has helped over 35,000 students achieve their goals.

“What a wonderful experience for my son! He not only learned about his potential future career but about himself. The organisation and quality of teachers is great, and the experience will have a long-lasting effect on his life!”

Rubby, Oxford Royale Parent

Benefits of Our Summer Programmes

Attending a summer programme with Oxford Royale helps students get ahead: not only academically, but personally and socially, too, as they develop greater independence and confidence, and are exposed to diverse opinions and cultures. Whether they study with us for two, four or six weeks, they'll:

1. Discover new academic passions and explore potential career paths (that they perhaps haven't considered previously).
2. Gain a deeper understanding of favourite subjects – and the skills and knowledge to boost future university applications.
3. Experience life as a student at an elite institution in an incredible location.
4. Master skills that enhance future job prospects – from public speaking to problem-solving.
5. Meet a truly international community of peers and build a future professional network.

Why Choose Us?

We are the leading academic summer school providers in the UK and US, offering students access to exceptional programmes that challenge, inspire and connect them with a truly global network of peers. Here's what sets the Oxford Royale gold standard – and sets us apart from our competitors:

Live on campus at the world's greatest universities – and experience the most exciting cities on earth.

From Oxford and Cambridge to London and San Francisco, every Oxford Royale location is selected for its academic excellence, rich history and cultural diversity. Students have the opportunity to not only experience student life on world-leading university campuses, but explore the historical and cosmopolitan cities where they are located.

Future-facing programmes crafted by leading academics.

Every Oxford Royale programme is designed by subject-matter experts and authorities in curriculum development – before being reviewed by academics. This means that all our courses meet consistently high standards and that learning material and teaching methods follow up-to-date trends. (For more on our academic approach, turn to p12.)

The most diverse – and international – student population.

Since 2004, we have welcomed students from over 175 countries. This makes the Oxford Royale classroom a unique place to be: whatever programme or location you choose, you'll share subject knowledge and cultural experiences with fellow young people from all over the world to gain a truly global perspective.

World-class faculty and guest speakers.

Sourced from the world's most elite academic institutions, our teaching staff are at the very top of their game, with decades of collective expertise and experience between them. Our ambitious young learners receive a broad but deep understanding of their subject(s), equipping them for a degree in their chosen field.

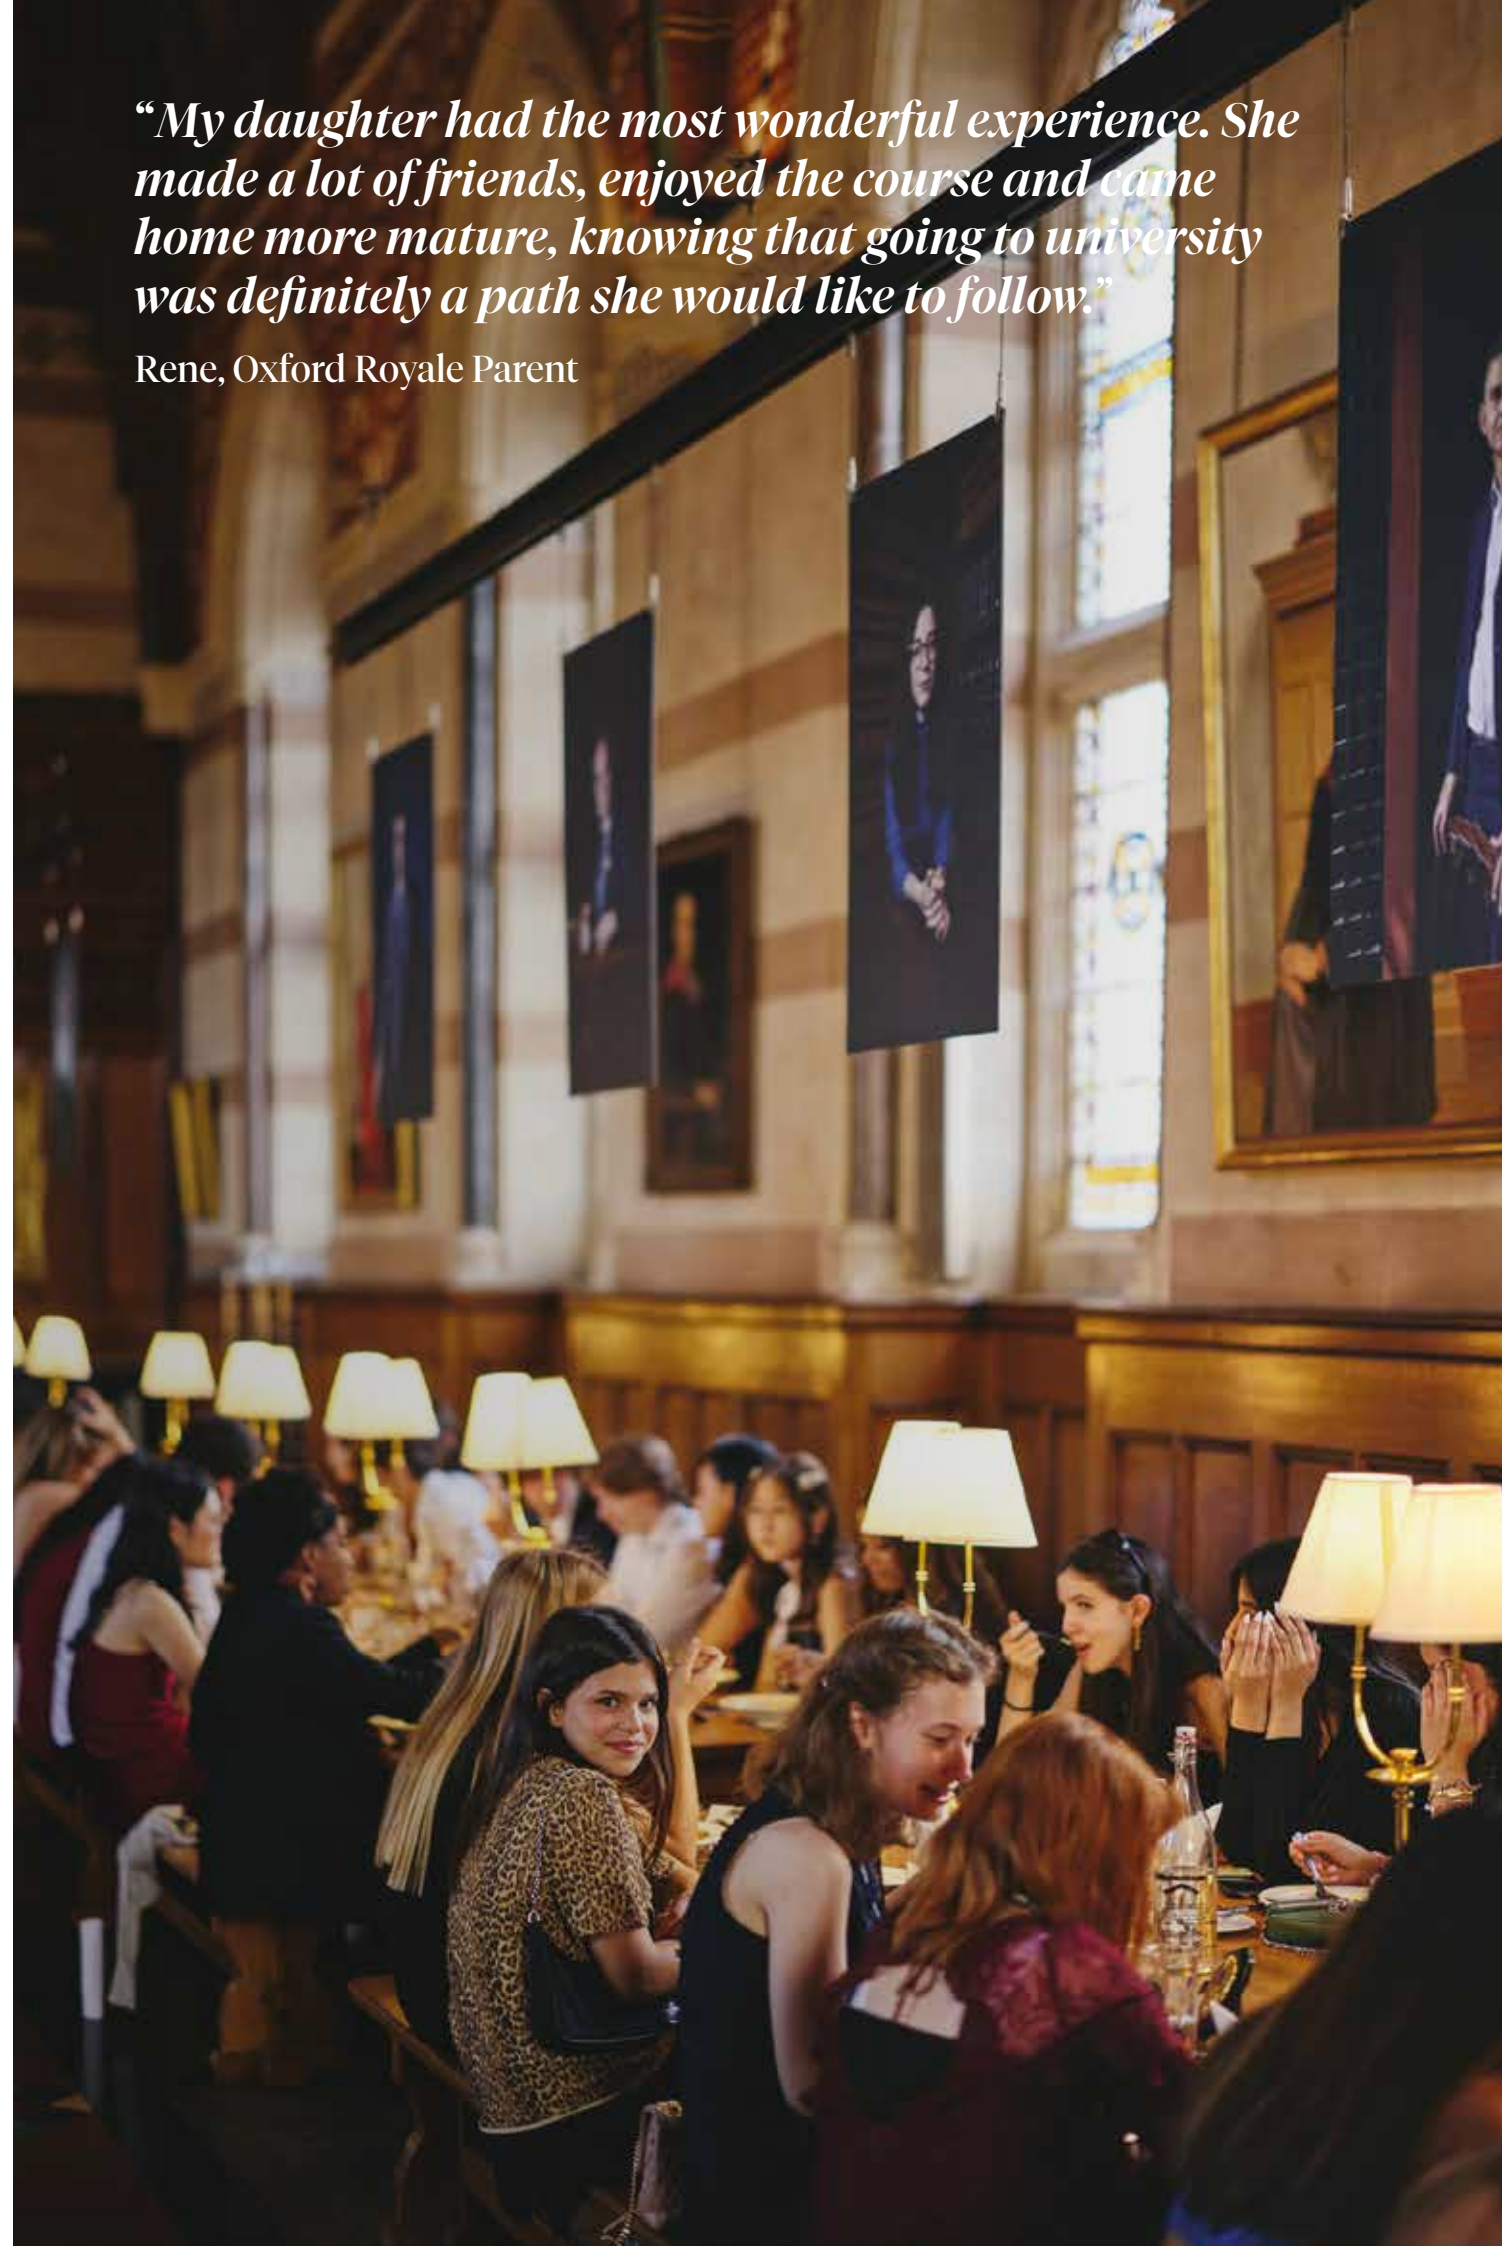

Likewise, our students enjoy face-to-face headline addresses with some of the greatest thought-leaders of our time – from historian David Olusoga to astronaut Helen Sharman and mathematician Marcus du Sautoy.

Highly experienced Programme Directors with extensive educational knowledge.

Our priority is to guarantee that students' time with us is safe, happy and structured. Unlike other summer programmes, Oxford Royale is led by programme directors with extensive experience working in education – many of our team are former head teachers, experts in safeguarding and helping young people reach their full potential. Our team is available 24/7 to support and assist students' wellbeing. (For more on pastoral care, flip to p44.)

“My daughter had the most wonderful experience. She made a lot of friends, enjoyed the course and came home more mature, knowing that going to university was definitely a path she would like to follow.”

Rene, Oxford Royale Parent

Student Stories

A summer spent with Oxford Royale has lifelong benefits – from attending top-tier universities worldwide to setting up their own successful ventures. Just ask our impressive (and ever-growing) list of 35,000 alumni.

Thibaut Monfort-Micheo
Co-founder and Head of R&D, Flex-Sea
MEng: Imperial College London

Studied with Oxford Royale in 2015

“My Oxford Royale course really confirmed my belief that I wanted to go to university in the UK and helped me to understand what I needed to do to get there. This decision, and studying at Oxford Royale, has been the foundation for my career; I gained a degree in Engineering from Imperial College London and then jointly founded a company. We’re developing a new edible, biodegradable material based on seaweed that is set to revolutionise the packaging industry. Learning with Oxford Royale was so enjoyable, it didn’t feel like studying at all.”

Eleonora Svanberg
Founder of Girls in STEM, Published Author and STEM Influencer
PhD Student in Theoretical Physics, The University of Oxford

Studied with Oxford Royale in 2016

“I had always wanted to experience Oxford and was interested in pursuing physics research in the future, so mathematics and physics felt like a perfect fit. I loved the teaching – it was smaller classes which allowed for more discussions and 1:1 time with the teachers. The best part, though? The confidence I gained afterwards. I knew I could take any future academic challenge! It was an amazing opportunity I’ll cherish for life.”

Catarina Domingos
Business Consulting Analyst, Deloitte
Masters in Management, Nova School of Business and Economics and Bachelor’s in Business and Education

Studied with Oxford Royale in 2012

“I was keen to find out what university would be like and how it would feel to be on a degree course. My time with Oxford Royale really showed me this. It also encouraged me to think on a much wider scale, and confirmed my desire to be in an international environment. I really enjoyed the debates, the interactive group projects and the classes that were outside the main subject of our course, aimed at broadening our horizons. The work at Oxford Royale course was challenging, but tackling such a challenge at that stage gave me confidence for the future.”

Usama Bin Shafqat
Software Engineer, Google
Bachelor of Science, Computer Science, Princeton University

Studied with Oxford Royale in 2012

“Preparing my Oxford Royale application and attending the summer school was the highlight of my year. Our group had a great vibe as everybody was motivated to socialise and try new things in the short time we had together. Learning from new teachers with a different perspective gave me a real boost. When the time came to apply to university I had the language, knowledge and experiences to set myself apart as a serious candidate.”

Universities Oxford Royale alumni went on to attend:

Companies Oxford Royale alumni have gone on to work for:

Academic Excellence

Programmes hand-developed by experts. 40 hours of academic content over two weeks. Small class sizes. Immersive and varied university-level teaching: our holistic approach to academics steers every student to reach their full potential.

Oxford Royale's teaching methods are designed to not only develop academic subject knowledge, but to broaden crucial life skills, from public speaking and presenting to critical thinking. Here are some of the ways students learn:

Workshops

Immersive classes where students learn by doing.

Seminars

Working in small groups, students enjoy lively discussions and debates.

Interactive Lectures

Dynamic sessions delivered by passionate speakers.

Varied Assessments

Assessments will comprise one written task and one of the following – either a project OR a practical presentation – which will be marked and count towards students' final grades.

Group Projects

Bright minds working together produces great results.

Debates

Hone your reasoning and public speaking skills in a fair and open forum.

Masterclasses

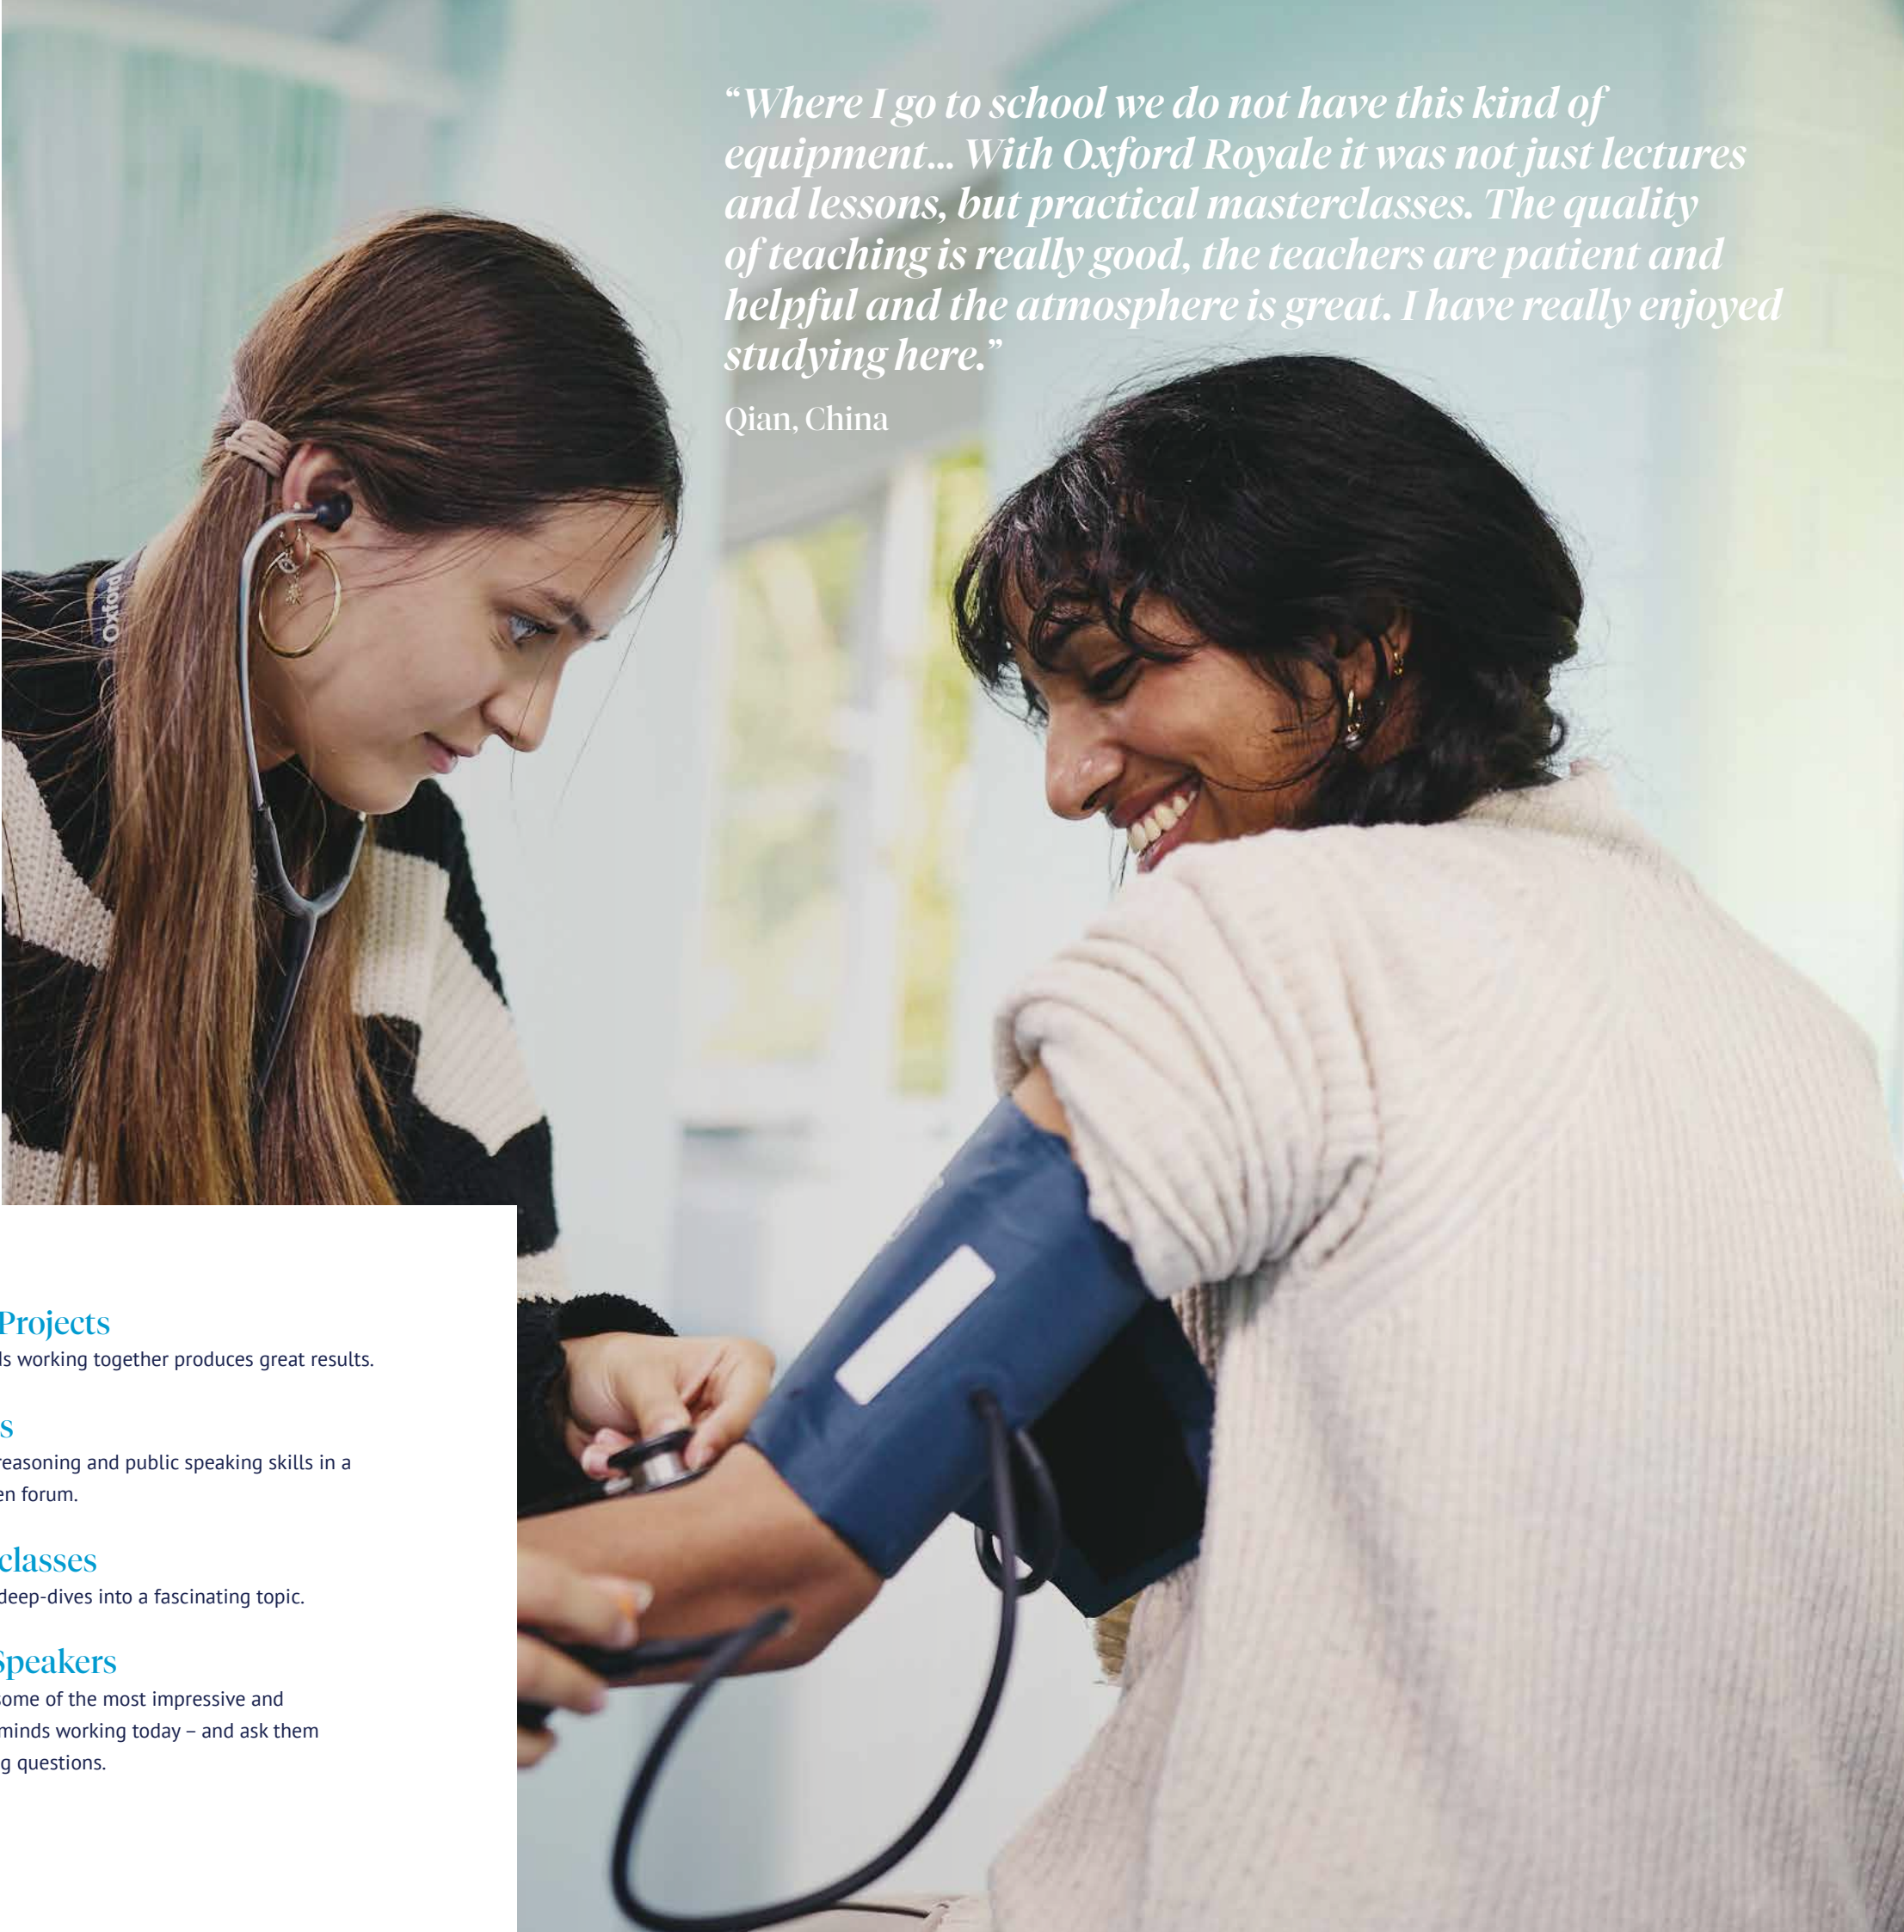

Expert-led deep-dives into a fascinating topic.

Guest Speakers

Hear from some of the most impressive and celebrated minds working today – and ask them your burning questions.

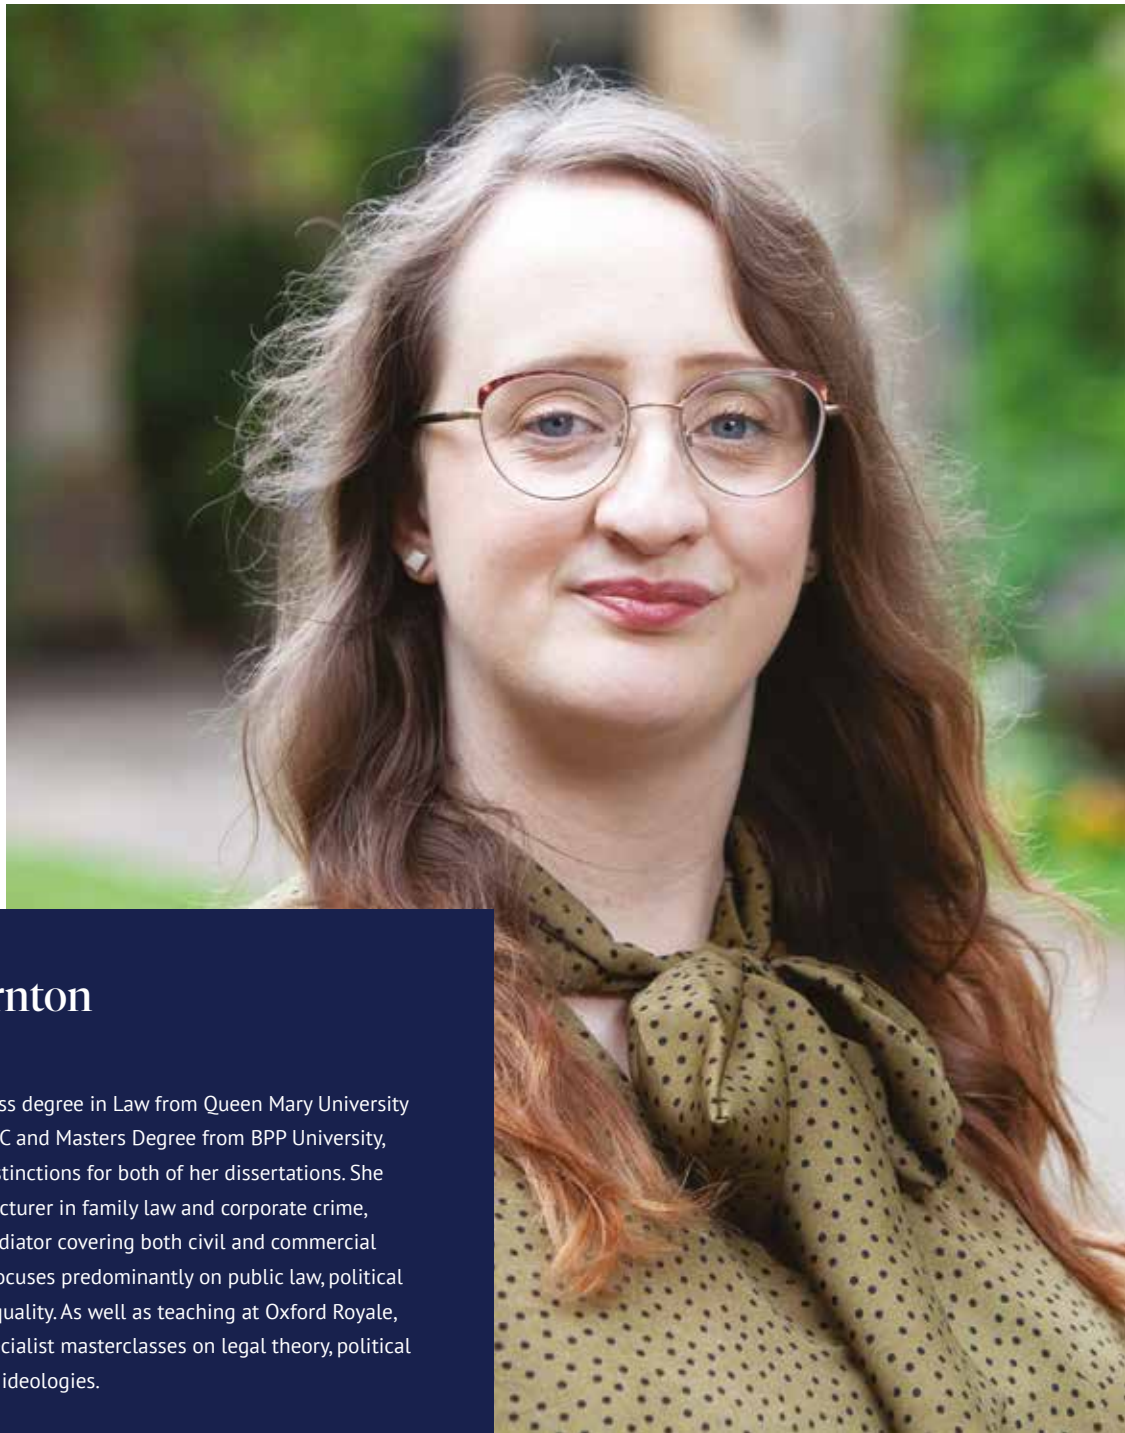

“Where I go to school we do not have this kind of equipment... With Oxford Royale it was not just lectures and lessons, but practical masterclasses. The quality of teaching is really good, the teachers are patient and helpful and the atmosphere is great. I have really enjoyed studying here.”

Qian, China

Our Teachers

World-leaders in their academic or professional fields, Oxford Royale’s teachers are handpicked for their wealth of expertise and experience – as well as their ability to challenge, motivate and inspire young people. Whatever your chosen subject, you can be assured you’ll be learning from the very best.

Kelly Thornton
Law & Politics

Kelly holds a first class degree in Law from Queen Mary University of London, and a BPTC and Masters Degree from BPP University, where she gained distinctions for both of her dissertations. She practises as a Law Lecturer in family law and corporate crime, and is a qualified mediator covering both civil and commercial cases. Her research focuses predominantly on public law, political trends and gender equality. As well as teaching at Oxford Royale, Kelly has created specialist masterclasses on legal theory, political strategy and utopian ideologies.

Dr Naemi Amanuel Araya
Medicine

Dr Araya is a medical professional with an MSc in International Health and Tropical Medicine from the University of Oxford. Her exciting career in medicine has taken her to environments as diverse as the Sudan-Ethiopia border and Thailand, and she has even presented a policy brief to the UK Parliament on diagnostic surveillance for infectious diseases. This experience, along with her participation in initiatives like the Oxford Impact Lab and the Global Leadership Challenge, underscores Dr Araya’s commitment to addressing pressing global health challenges through research, innovation, and leadership.

Dr Anisa Butt
Business, Innovation and Entrepreneurship

Dr Anisa Butt is a lecturer in Economics at King's College London and completed her PhD in Economics at the University of Reading. Anisa’s research focuses on economic inequalities, with a focus on gender and ethnic income inequality. She contributed to the book *Gender Inequality in the Eastern European Labour Market*, through carrying out comparative analysis on gender equality research. Anisa has taught undergraduate and A-level students, and has been part of the Oxford Royale team for more than 5 years.

Andile Dube
Medicine

Andile is an MRes in Surgical Sciences candidate from St John’s College, University of Oxford. His experience is in Patient Safety (NHS-UK), Public Sector Patient Care, Global Health, and Medical Technology Innovations (Diagnostic and Therapeutic). He also has a strong interest in medical research, healthcare economics and healthcare equity advocacy. He has completed an MBA at the Saïd Business School, to broaden his outlook on healthcare focused financial services and strategies.

Guest Speakers

Our students are inspired by the remarkable knowledge and experience of some of the greatest thinkers of our time, from world-leading politicians and poets to philosophers, scientists and business leaders. Below are just a few of the guest speakers who have previously delivered talks to our students.

Helen Sharman, OBE
Astronaut

Helen Sharman OBE is the first British Astronaut. In May 1991, she launched on a Russian Soyuz spacecraft and spent 8 days orbiting the Earth, living and working on the MIR Space Station. A superb speaker, Helen enthuses her audience about Space, STEM and the wonders of science. She describes the meticulous training and preparation, learning Russian, the launch and landing, how weightlessness feels, her science experiments, the team spirit, and adjusting to life back on Earth. Awarded the OBE in 1993, Helen is a full-time scientist, a pioneer and role model for young people (of all ages!)

Dr Kerry McInerney
Distinguished AI ethics scholar
and advocate

Dr Kerry McInerney (née Mackereth) is a Senior Research Fellow at the University of Cambridge's Leverhulme Centre for the Future of Intelligence, where she co-directs the Global Politics of AI project, exploring AI's influence on international relations. She serves as a Research Fellow at the AI Now Institute, a foremost AI policy think tank based in New York, and is a Visiting Fellow at the Institute of Advanced Studies, UCL for the 2023-2024 academic year.

David Olusoga
Historian, writer and broadcaster

David Olusoga is a British-Nigerian historian, broadcaster and filmmaker, who has made TV series including Empire and the BAFTA-winning Britain's Forgotten Slave Owners. His award-winning book *Black & British: A Forgotten History* was also made into a major BBC TV series, and he is one of the three presenters on the BBC's landmark Arts series *Civilizations*. In 2020 he conducted an exclusive interview with former President of the United States, Barack Obama.

Sir Ranulph Fiennes
Explorer and writer

Named by the Guinness Book of Records as 'the world's greatest living explorer', Sir Ranulph's many ambitious endeavours have pushed his endurance levels to the very limits, inspiring generations of people. His many record-breaking achievements include being the first person to reach both Poles; cross both the Antarctic and Arctic Oceans; and to circumnavigate the world along its polar axis.

A Summer of Discovery

A holistic education extends far beyond the classroom.

That's why enriching events and excursions are a vital part of the Oxford Royale experience, from museum visits and sporting activities to debate nights – giving every student the chance to explore iconic places, have fun and make lifelong friendships along the way. Here's a taste of our extracurricular lineup, taking place during afternoons, evenings and weekends.

 Events and Excursions

- Volleyball
- Croquet
- Football matches between colleges
- Silent discos
- Graduation parties
- Debate clubs
- Punting
- Quiz nights
- Bowling
- Attending baseball matches
- Museum trips
- Immersive theatre
- College tours
- Art galleries
- Visits to iconic landmarks

“The programme has changed my mind about the subject and I am extremely interested in pursuing it as a career now.”

Nadir, Venezuela

A Day in the Life with Oxford Royale

Discover how you'd spend a typical weekday on and off campus, from morning masterclasses to exciting evening events. Each weekday includes four hours of academic teaching, followed by social activities and events – with weekends free to enjoy extracurriculars and excursions.

9am – 10am

Class 1. Kick-start your morning with an inspirational lecture introducing a core topic or module, led by one of our expert teaching staff or guest speakers.

10am – 10.30am

Morning break time

10.30am – 11.30am

Class 2. The second lesson of the day will be a deep-dive into your chosen theme or topic (debating and perspective-sharing encouraged!).

11.30am – 11.45am

Second morning break time

11.45am – 12.45pm

Class 3. Following on from Class 2, continue to explore your chosen subject more deeply via real-world applications and case studies.

12.45pm – 2pm

Lunch time

2pm – 3.30pm

Time to get stuck into Class 4, which takes the form of a practical workshop or group project. This could be a mock law trial, new business proposal or practical experiment, depending on your field of study.

3.30pm – 6pm

Late afternoons and early evenings are reserved for fun extracurricular activities (turn to the previous chapter for more). You could also take the chance to catch up on project work or enjoy additional academic sessions such as our Shaping Your Future Seminar or Debate Society.

6pm – 7pm

Dinners at our summer schools are a seriously social affair. From relaxed suppers to formal banquets, catch up on the day's events with friends old and new.

7pm

The fun doesn't stop as the sun goes down. Evenings on and off campus are for quiz nights, debating challenges, silent disco parties and much, much more.

On campus at the University of Oxford

The oldest university in the English-speaking world – founded in 1096 – the University of Oxford is steeped in stories and history. Divided into individual colleges, each with their own unique identity and character, you'll have the opportunity to live, learn and make lifelong memories on campus. Plus, Oxford Royale boasts the best (and biggest) selection of college accommodation of any summer school in the city.

The University of Oxford has been home to nearly half of Britain's 20th-century Prime Ministers, alongside a long list of starry alumni including former US President Bill Clinton; author of *The Lord of the Rings* trilogy, JRR Tolkien; and actors Rosamund Pike and Felicity Jones.

Off campus you can...

Wander the cobbled streets or go punting down the river, tour the vast collection of books at the Bodleian Library, or explore the famous filming sites of the Harry Potter films, including the Divinity School and Christ Church's Great Hall.

On campus at the University of Cambridge

The University of Cambridge leads the world in science and mathematics – with alumni who discovered gravity, evolution and DNA. Like Oxford, it's a university brimming with history (it's been educating students since 1209) and is conveniently close to the capital city, London, which is just an hour away.

Peaceful and picture-perfect, keen photographers will love Cambridge! Famous alumni who attended the university include Sir David Attenborough and actors Eddie Redmayne and Emma Thompson.

Off campus you can...

Explore the city by bike; see an outdoor theatre show; or visit the University's Fitzwilliam Museum, packed with art and ancient artefacts.

On campus at Imperial College London

The UK's capital city needs no introduction – and neither does Imperial College London, one of the world's most respected and prestigious academic institutions, specialising in science, engineering, medicine and business. As well as ranking consistently in the top ten universities worldwide, Imperial has produced an impressive number of Nobel laureates and is a globally renowned centre of tech and scientific innovation.

If you choose to study on campus at Imperial, you'll live in actual undergraduate accommodation – giving you an authentic glimpse into London student life. And with a central campus right next to the city's most popular museums, you'll enjoy history and culture on your doorstep.

Off campus you can...

Discover everything London, our most vibrant and cosmopolitan location, has to offer – from world-class museums and galleries to beautiful parks and famous landmarks.

On campus at Yale University

Part of the elite Ivy League and often recognised as one of America’s most beautiful college campuses, Yale is nestled in the heart of New England and has produced a deeply impressive list of alumni, including five US Presidents; Samuel B. Morse, the founder of Morse Code; and founder of Pinterest, Ben Silbermann.

Located in New Haven, Connecticut, Yale is within easy reach of Boston and New York – but has plenty to offer on campus itself, which boasts four world-class museums and six libraries to explore.

Off campus you can...

Close to home, you can soak up the Ivy League atmosphere at iconic Yale institutions such as the Beinecke Rare Book & Manuscript Library and the Cushing Centre Medical History Exhibition, or join tours of the historic streets of New Haven (one of America’s most walkable cities). Grab a slice of New Haven’s legendary thin-crust, coal-fired pizza - also a must try: their iconic lobster rolls.

On campus at the University of California, Berkeley

The most prestigious of all the University of California institutions, Berkeley is a energetic and inclusive campus with a rich history of activism, cultural diversity and academic excellence. Established in 1868, UC Berkeley holds the title of best public university in the world, and has become an iconic symbol of higher education, with acclaimed alumni including authors Joan Didion and Jack London, Nobel Prize winning physicist George Smoot and Apple Inc. co-founder Steve Wozniak.

With its close proximity to Silicon Valley and the vibrant city of San Francisco, Berkeley is a unique setting for intellectual exploration.

Off campus you can...

“The experience has truly been life-changing. In just two weeks I have made lifelong friends from around the world, learned from one of the best professors, and developed skills that I would not have otherwise gained. I was fortunate to be in a class of 15 like-minded students who were keen to learn and challenged me in the best ways.”

Zoya, Australia

Courses for 13 – 15 Year Olds

At an Oxford Royale summer school for 13 to 15 year olds, bright young individuals embark on a remarkable transformative journey of cultural exchange, academic enrichment and personal growth.

Often travelling abroad on their own for the first time, our youngest participants grow in confidence and establish their independence in an international environment. To maximise this unique opportunity for growth, they are supported all the way by our academic and pastoral staff.

Meeting peers from across the world, our younger learners forge global connections and create lifelong friendships. Through guided debate and exchange of ideas, they embrace the richness of different cultures and gain fresh perspectives. Outside the classroom they experience two weeks of vibrant social and cultural activities, alongside a calendar of enriching excursions to help them discover their chosen location.

Explore Business, Innovation & Entrepreneurship

[Oxford](#), [Cambridge](#), [Yale](#)

Leap into the exciting world of business, finance and marketing. This course equips students with the skills to launch and manage their own business and the mindset to become ground-breaking entrepreneurs. Students are immersed in compelling case studies and have the opportunity to learn through projects and business simulations.

Explore Medicine

[Oxford](#), [Cambridge](#), [Yale](#)

Expand your understanding of medicine through practical, hands-on medical simulations and a broad introduction to the basics of human anatomy and physiology. Investigate the common practices of medicine and explore the critical competencies needed to become a successful medical practitioner.

Explore Engineering & Technology

[Oxford](#), [Cambridge](#), [Yale](#)

Investigate the fields of Civil, Mechanical, and Electrical Engineering in a comprehensive introduction to engineering and survey of emerging technical applications, from self-driving vehicles to space travel. Learn to think like an engineer and strengthen critical thinking, problem solving and creativity skills.

Racing Extinction: Climate, Politics & Global Leadership

[Oxford](#)

Preserve life on planet Earth by collaborating in small groups of delegates to generate solutions to some of the challenging issues facing humanity. The course looks at climate change, water resources, food instability and wildlife conservation, and demonstrates how the fields of climate science, politics, law and leadership can work together to beat extinction.

Film Academy

[Oxford](#)

Shoot, edit and screen a short film on location. With the University of Oxford – the setting of scenes in the Harry Potter films – as your backdrop, gain insights into film production and digital editing as you experience first-hand how to create a film. Working with film industry professionals, you'll also study screenwriting, location scouting and storyboarding.

English as a Foreign Language

[Oxford](#)

Develop strong skills in English grammar, syntax, pronunciation and colloquial usage in speaking, listening, reading and writing. The course aims to expand vocabulary and build a foundation to support superior English reading and writing skills for all situations and uses.

Courses for 16 – 18 Year Olds

Planning for a successful future becomes a top priority for students aged between 16 and 18. This crucial period marks a time when students contemplate which university they might choose, and which field of study to pursue.

Many of them are also looking further ahead to consider potential career paths. Oxford Royale's summer schools offer an unparalleled opportunity for ambitious individuals to decide on the next steps toward a bright future.

Our courses take place on campus at some of the world's most prestigious educational institutions, allowing students to experience an authentic taste of both the style of education at university and life on campus. They build confidence and prepare for the independent lives they will lead as they head into their chosen field of further studies.

Gaining fresh perspectives from an international community, our students establish a lasting network to support them on their academic journey. The unique blend of academic, social and cultural pursuits at an Oxford Royale summer school is the perfect motivation as students begin making important decisions for their future.

**Curing the Future:
Medicine & Disease**

[Oxford](#), [Cambridge](#), [London](#), [Yale](#)

Gain a deeper understanding of the roles within medicine and the required skills. Using case-based learning, students explore key systems in health, disease and examination, and apply theory to practise as they develop skills such as medical-history taking, doctor-patient interactions and conducting A-E assessments.

Experimental Psychology

[Oxford](#), [Cambridge](#)

Delve into the workings of the human brain, mind and behaviour as you explore topics such as memory, identity, mental health and childhood development. Students will have the opportunity to analyse debates in experimental research, develop data-interpretation skills, as well as analysing research reported in the media.

Law & Politics

[Oxford](#), [Cambridge](#), [London](#)

Examine the interconnection of law and politics, and take the first step towards a legal career. Focusing on emerging issues in these fields, the programme fosters discussion and debate through legal case studies on a broad range of issues ranging from human rights to contract negotiations.

**Law & Trial
Advocacy Academy**

[Yale](#), [Berkeley](#)

Experience the legal process and gain a broad introduction to the theory and practice of law. You'll learn about case preparation, cross-examination and working with witnesses, and how to develop, argue and win a case, applying these skills during a mock trial simulation.

**Inventing the Future:
Business, Innovation
& Entrepreneurship**

[Oxford](#), [Cambridge](#), [London](#), [Yale](#),
[Berkeley](#), [New York](#)

Sharpen critical thinking, business modelling, presentation and leadership skills through analysis of the challenges business and entrepreneurs today face. Students will explore how successful businesses can innovate to keep up with developments and learn to develop their business mindset to become an entrepreneur of tomorrow.

Economics & Finance

[Oxford](#), [London](#), [New York](#)

Gain the knowledge and skills to navigate the complexities of the modern business environment. This programme integrates the complementary disciplines of economics and finance, to give students a well-rounded perspective on the financial, strategic, and microeconomic and macroeconomic factors that influence business decision-making.

**Designing Tomorrow:
Engineering & Technology**

[Oxford](#), [Yale](#)

Investigate a range of engineering disciplines and the technologies that are shaping the future. Providing a broad foundation to engineering, and an overview of the intersection of engineering and technology, this course will inspire students to take on the future's grand challenges.

Architecture & Design

[Oxford](#), [Cambridge](#), [London](#), [Yale](#)

Bring your ideas to life as you apply the core principles of architecture, including planning, design and spatial mapping. Produce a range of architectural drawings and collaborate in teams to propose and present solutions for the urban city of 2050.

**Racing Extinction:
Climate, Politics &
Global Leadership**

[Oxford](#)

Preserve life on planet Earth by collaborating in small groups to generate solutions to the challenging issues facing humanity. The course demonstrates how the fields of climate science, politics and law and leadership can work together to beat extinction.

Film Academy

[Oxford](#)

Shoot, edit and screen a short film on location. With the University of Oxford – setting of scenes in the Harry Potter films – as the backdrop, gain insights into film production and digital editing as you experience first-hand how to create a film with guidance from film industry professionals.

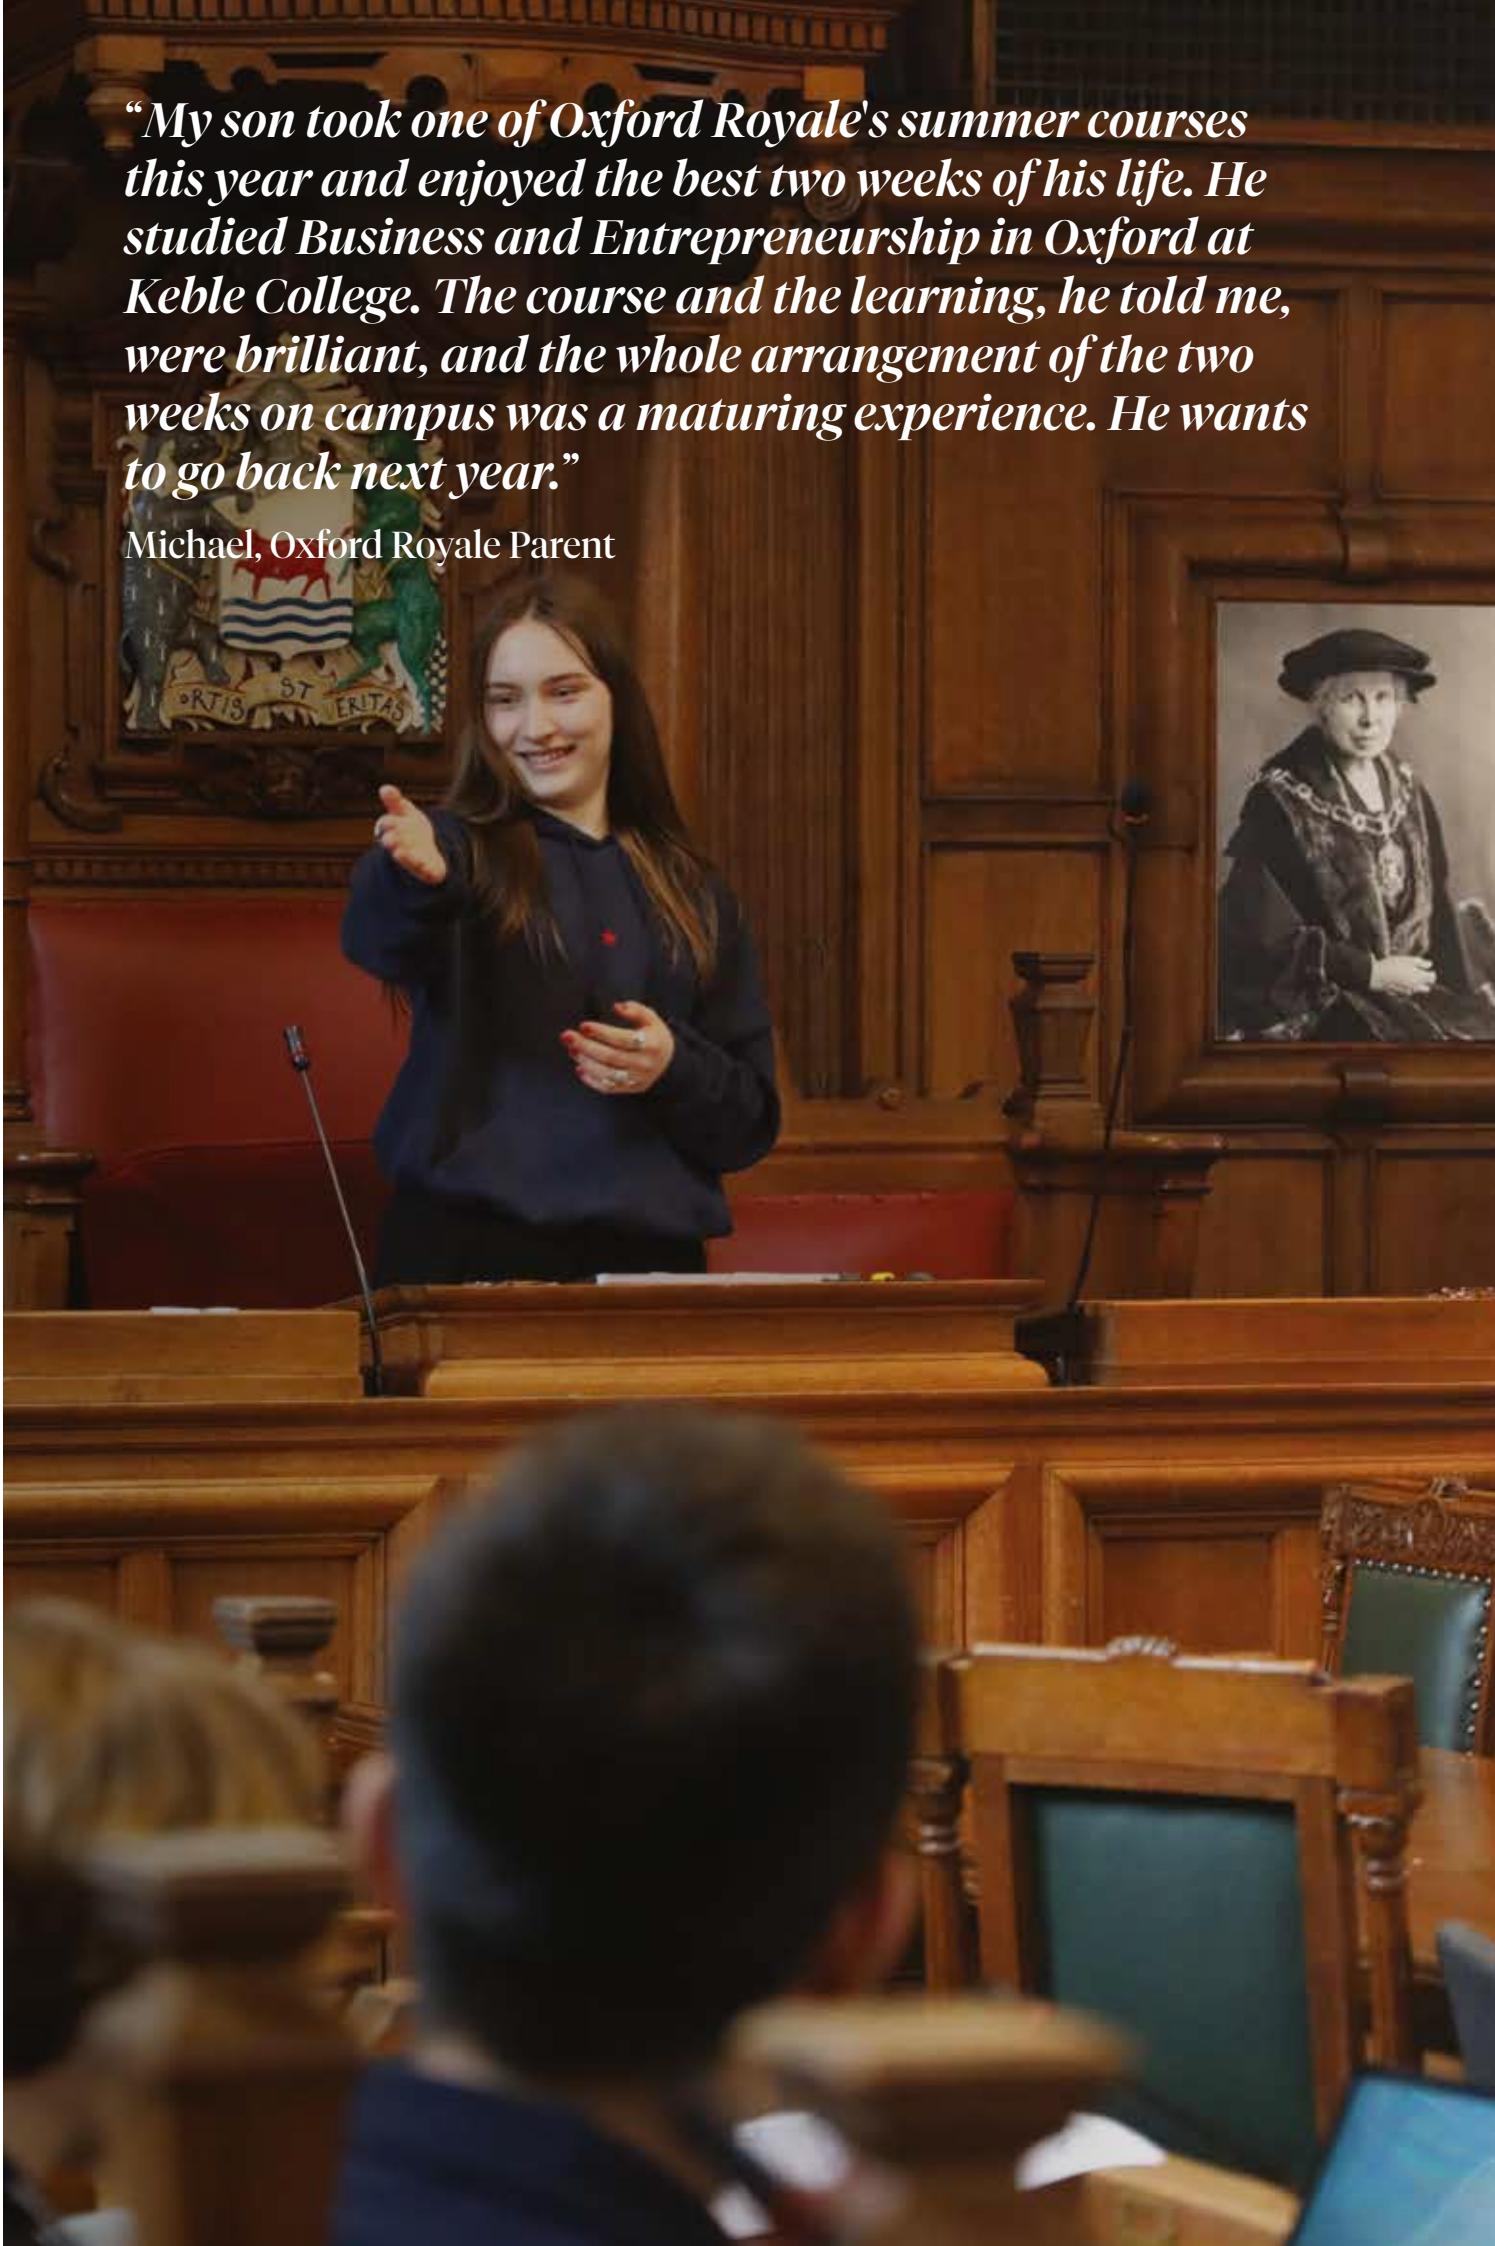

**English as a
Foreign Language**

[Oxford](#)

Develop strong skills in English grammar, syntax, pronunciation and colloquial usage in speaking, listening, reading and writing. The course aims to expand vocabulary and build a foundation to support superior English reading and writing skills for all situations and uses.

“My son took one of Oxford Royale's summer courses this year and enjoyed the best two weeks of his life. He studied Business and Entrepreneurship in Oxford at Keble College. The course and the learning, he told me, were brilliant, and the whole arrangement of the two weeks on campus was a maturing experience. He wants to go back next year.”

Michael, Oxford Royale Parent

Pastoral Care

At Oxford Royale, your child’s welfare is our number-one priority – and we do everything within our power to make sure that their summer with us is a safe and happy one.

We pride ourselves on the exceptional level of pastoral care we provide to our students, made possible by the expertise and experience of our teams and our robust system of welfare policies and procedures.

Our Exceptional Team

Our award-winning staff work night and day to ensure all students’ security and comfort. Our team includes a Programme Director, team of counsellors – often current members of our host universities – and residential members of staff on campus 24/7, who can assist our students day and night with any concerns.

Unlike other summer programmes, Oxford Royale is led by programme directors with extensive experience working in education – many are former head teachers, experts in safeguarding and helping young people reach their full potential.

Our Processes

Accommodation, Gender, and Age Groups

We are committed to providing secure, single-sex facilities, and house male and female students in separate corridors and/or staircases. Students may enter the room of another student/ students of the same sex before curfew, but not later, and are strictly prohibited from entering the accommodation of students of the opposite sex at any time.

Leaving Campus

Students leaving campus for any amount of time must sign in and out, and wherever a student is planning to leave the course overnight, at weekends, or any other such time as to mean they will miss a register, they must ask their parents or guardians to complete an exeat form and personally submit it to Oxford Royale. Students are forbidden from leaving the campus grounds after curfew, or, in the case of thirteen- to fifteen-year-olds, after dinner-time.

Admissions and Enrolment

How to Enrol

Our online application form takes just a few moments to complete, and will ask you for the name and details of the student enrolling, as well as the person paying the fees. All you need to do beforehand? Choose your course and the location in which you'd like to study, and decide on the dates that suit you.

🌐 Online Enrolment
apply.oxford-royale.com

Payment and Deposit

We ask for a deposit at the time of booking. We prefer payment via a credit or debit card, but other options are available on request.
